- The property is one of the most efficient office buildings in Poland with an add-on factor of just 3.5%.
- Underground car park with 150 parking lots and 115 parking spaces outside (car parking ratio of 1/27 sqm).
- Full range of property management services provided by WeCARE company, a member of Liebrecht & wood Group.

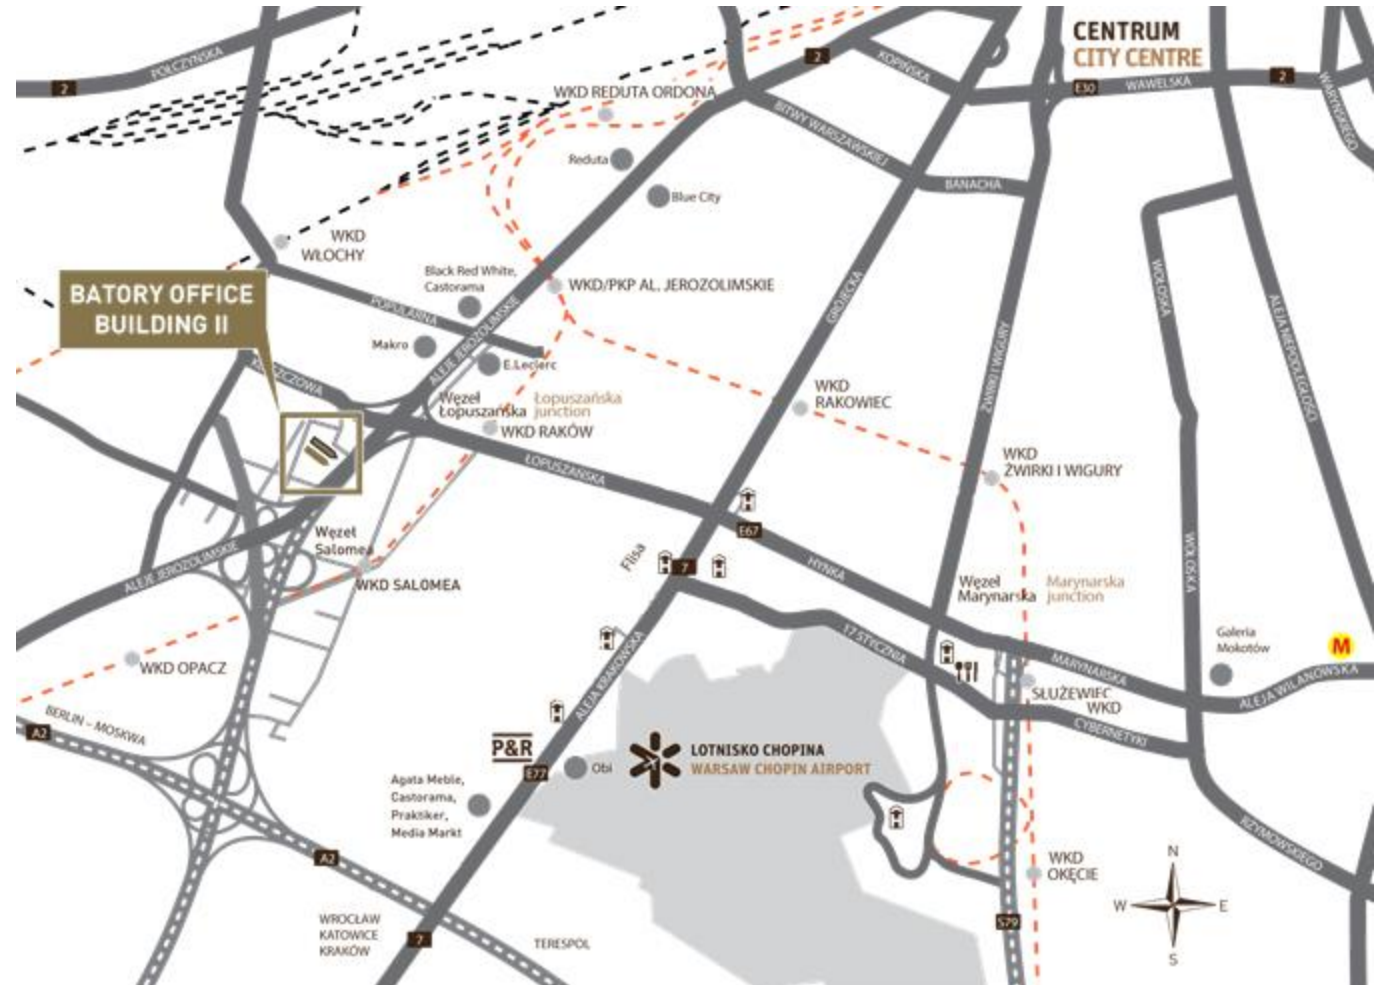

BATORY OFFICE BUILDING II

LOCATION

Batory Office Building II is located next to the three level intersection of Aleje Jerozolimskie and Łopuszańska street, which is a part of a major traffic route connecting all the main access roads in the southwest district of Warsaw.

Another transportation hub located in the vicinity - Salomea - provides tenants of Batory Office Buildings with convenient access to, among others, Warsaw's Southern Ring Road and the S8 express highway.

Warsaw Chopin International Airport is just 5 km away.
