The right office is half way to success

02 / All roads lead to Flanders Business Park

The southwest section of Warsaw is an area highly valued by Polish and international companies looking for offices outside the city centre but perfectly connected with it.

The location of Flanders Business Park is the result of careful observation of the changes taking place on the map of Warsaw. The area provides a natural link between the two lively metropolitan business centres of Jerozolimskie Avenue and the Mokotow district. Modern road infrastructure is developing nearby, with **Salomea and Opacz junctions** and the **multi-level intersection of Łopuszańska St. and Jerozolimskie Ave.**

Quick access to the city centre and other districts of Warsaw, and the proximity of **Warsaw Chopin International Airport**, are primary advantages of this part of the city.

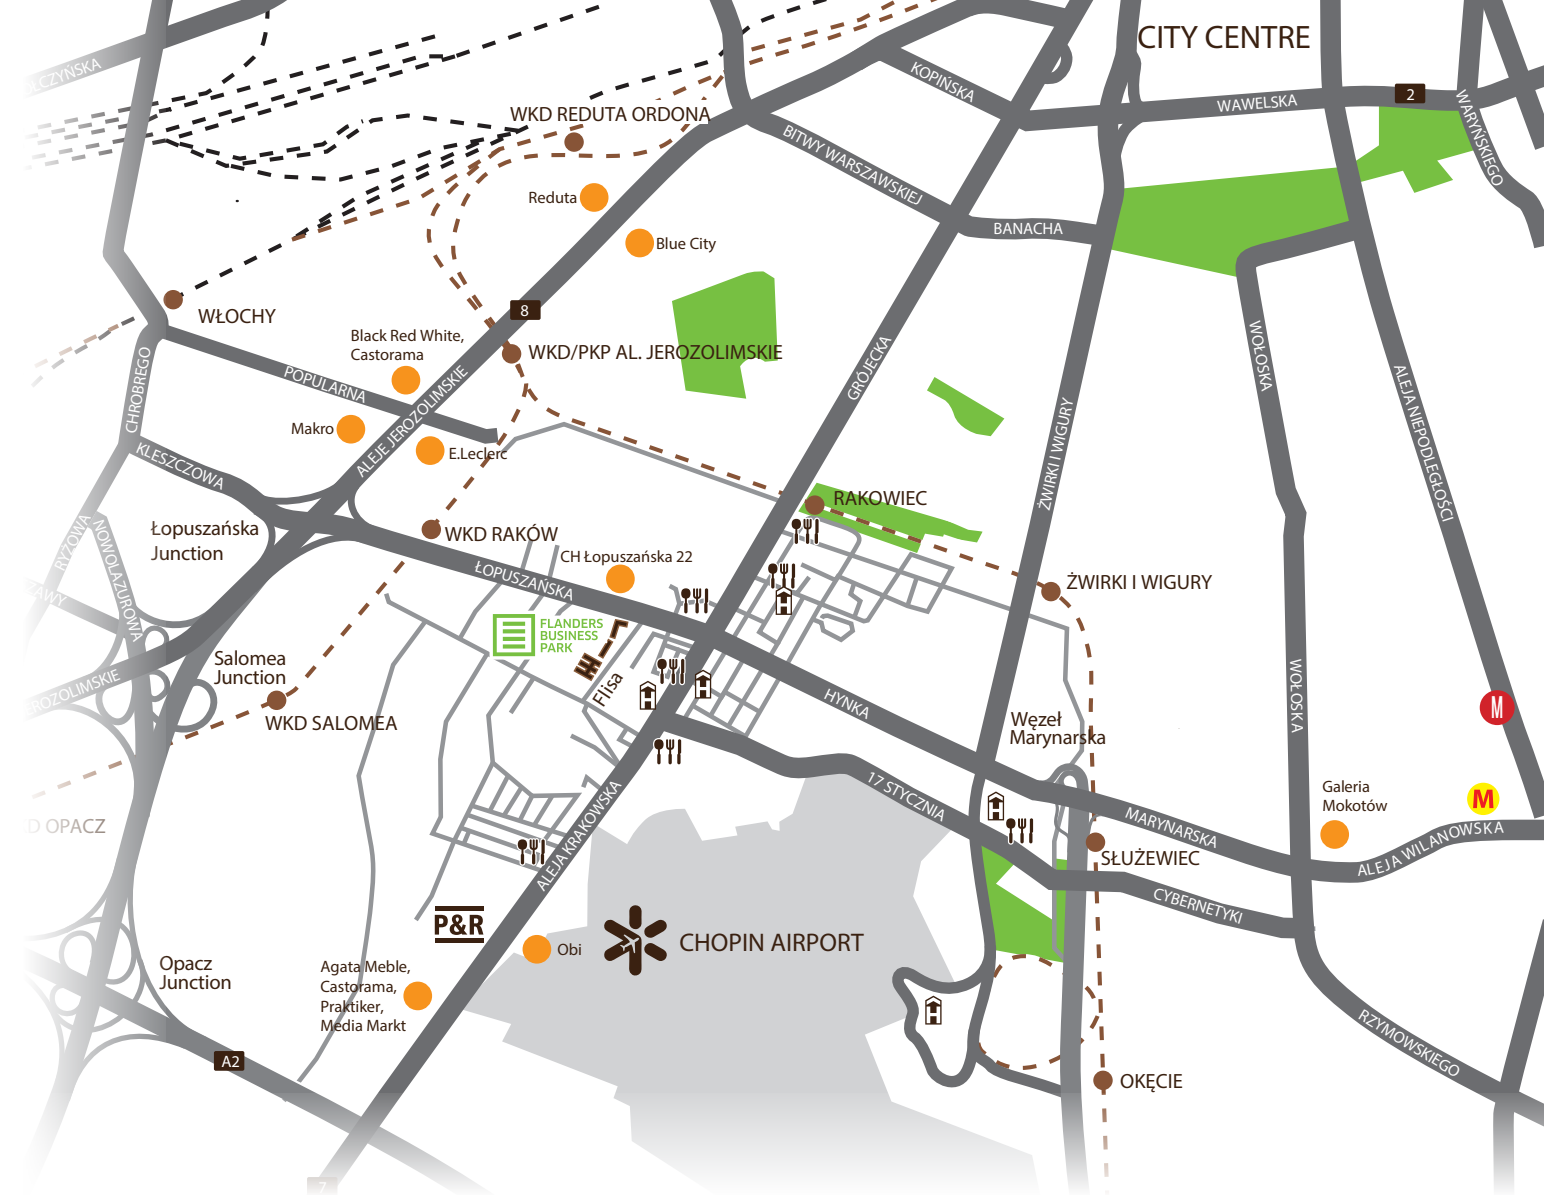

New business district

03 / Easy access from every point of the city

Flanders Business Park is located on Flisa St., near the intersection of two of the city's most important transit arteries – Łopuszańska St. and Krakowska Avenue. The complex is easily accessible for both motorists and users of public transit. The numerous bus and tram lines running nearby as well as the WKD commuter rail line provide efficient connections with Śródmieście and other districts.

04 / Public transport and amenities around

Next to Flanders Business Park there are bus and tram stops of 6 lines and city rail station. However you don't need to go to the city centre in order to shop, have lunch or have your guests accommodated. On the other side of Łopuszańska a shopping centre with 188 shops and 10 restaurants is located. There are also numerous services and supermarkets in the vicinity.

- » **5 min to the nearest bus stops** (Łopuszańska St., lines 189, 401)
- » **6 min to the public transport stops** (Krakowska Ave., lines 7, 9, 15, 189, 141 and 401)

06 / Architecture

07 / A moment to relax during a day green areas in Flanders Business Park

The buildings' layout, space planning, height, distribution of parking lots, and arrangement of green areas – the architects submitted all these elements to the principle that says **friendly space improves efficiency and boosts employees' moods**.

The goal of Flanders Business Park designers was establishing an optimal work environment, enabling moments of rest.

Within the common space of Flanders Business Park there will be:

- » Two comfortable chillout zones,
- » A green patio,
- » A spacious restaurant garden at Flanders Lunch & Coffee,
- » Numerous bicycle stands,
- » A smoking area away from the entrances.

17 / Sustainable construction and eco solutions

The newest part of Flanders Business Park - building C - was made following the BREEAM international certification at "very good/excellent" level.

» Excellent thermal insulation

In order to reduce the consumption of energy needed for heating and cooling the offices, particular elevations of the building are precisely oriented toward the points of the compass. In the direction where the risk of loss of energy is the greatest, walls with increased insulation factors are used. Double-glazing is also used throughout, with glass preventing excessive energy loss.

» Sunscreen systems

On the windows on the facades of the southern and western exposures there are additional sunscreens, allowing regulation of the degree of exposure of the office space to sunlight and preventing overheating.

» Modern, energy-saving lifts

The system of lifts was designed to minimize waiting time and reduce the consumption of electricity, making the building more convenient to use while cutting exploitation costs.
